# Montana School District ARP ESSER Plan Update DATE 02/22/24 - Arrowhead Elem LE1215

This tool allows districts to update their ARP ESSER plans at any point. Updates must be completed at least once every six months.

# Federal Requirement

The US Department of Education (USED) required the OPI to establish a process for district plans consistent with the ARP ESSER requirements for the use of ARP ESSER funds and ensure plans be made available to the public, within no later than 90 days after a district received its ARP ESSER allocation (August 24, 2021). The requirements for the school district plans include, at a minimum, how districts will:

- 1. use funds to implement prevention and mitigation strategies;
- 2. use the funds totaling not less than 20% to address lost instructional time;
- 3. spend its remaining 80% of ARP ESSER funds;
- 4. respond to needs of student disproportionately affected by the pandemic; and
- 5. meaningfully engage with and consult stakeholders in crafting their plans.

Each of these federally required components are embedded into this school district ARP ESSER plan.

In addition, the USED requires the OPI to support and monitor each school district's use of ARP ESSER funds, including:

- i. implementation of evidence-based interventions;
- ii. address the student groups specifically that were disproportionately impacted by the pandemic; and iii. identify, reengage, and support students who have experienced the impact of lost instructional time. The plan will provide the information necessary for the OPI to support and monitor school districts as they move forward.

# State Components

Throughout this school district ARP ESSER plan, the OPI has emphasized local control and coordination of state initiatives and requirements so that school districts can identify and innovate solutions for unique local needs and priorities. These components are embedded in the school district ARP ESSER plan. Additionally, the OPI will seek flexibility from the Board of Public Education to use the Goals section of this plan in place of the Continuous School Improvement Plan (CSIP).

Initial ARP-ESSER plans were developed through the use of a template. This plan update tool will provide districts with their most recent plan submission presented with the same fields and sections as their initial plan.

The sections of this tool match the sections of the template provided for districts to use for the creation of their plans.

The template sections are as follows:

- 1. School District-Identified Priorities
- 2. Meaningful Consultation
- 3. Goals
- 4. Coordinating Funds
- 5. Creating Safe and Healthy Learning Environment
- 6. Addressing Lost Instructional Time
- 7. Supporting the Educator Workforce
- 8. Monitoring and Measuring Impact of ARP ESSER funds

# Prior to updating your school district ARP ESSER plan, consider the following:

What data do you have available to you to measure the impact of your work and guide plan adjustments? What feedback have you received from stakeholders around your plan and/or your plan implementation? What steps have you taken to engage stakeholders in your update process?

# Instructions for updating your school district ARP ESSER plan

- Review the information in each field to verify that it matches the information you have at the local level. In the event that there is a difference please update any impacted fields during your update process.
- It is recommended that you complete your plan revision in a single sitting. If you are unable to do this please click through to the end of the survey and note on the final page that this submission represents an unfinished update draft.
- After you hit submit you will receive an email that contains a link that you can use for your next update. If you were submitting a draft update please be sure to return to complete your draft before the deadline.
